Why CAPAS?

CAPAS, a leading platform in Southwest China's automotive industry, serves as an efficient platform for business, information exchange and investment for trade professionals to tap into the entire automotive supply chain in this region.

1.2 million

units of vehicles were manufactured in Chengdu¹

9.6%

annual increase of production in 2017²

By 2020, new energy vehicle production will reach

300,000 units
in Sichuan³

Driven by domestic infrastructure rapid development and "Belt & Road" initiative, Commercial Vehicle segment has been taking off in this few years⁴

What can you get from CAPAS?

- A comprehensive platform for new energy vehicles, commercial vehicles markets and aftermarket sectors.
- Access to the region's highest quality suppliers in the automotive OE and aftermarket sectors.
- High quality fringe events to enhance your knowledge of the market and discover the hottest topics in the industry.

Strengthened product offerings through six theme zones

Supply Chain Procurement

Representing an efficient sourcing network which connects visitors with the region's key suppliers for the OE and aftermarket sectors.

Automobile Lifestyle

Showcasing a full array of products from car care, consumer electronics, interiors, customisation and car safety.

Quick Fix, Replacement Parts and Chain Stores

Presenting the latest developments in service chains, quick fix solutions, data management, insurance, finance and training for the aftermarket.

Commercial Vehicle

Featuring well-known manufactures, engine and parts companies, and new energy commercial vehicles.

E-mobility & Infrastructure

Gathering major new energy automobile manufacturers in the province and across China to showcase their latest innovations and services.

Made in Sichuan

Reflecting the local industry characteristics of the region, quality products from carmakers, parts and components, materials and auto services will be showcased.

High quality fringe programme to cater industry demands

A host of fringe events will be arranged to help visitors explore the huge potential within Southwest China's automotive market and seek partnerships with local suppliers. Factory visit, conferences, technical seminars and trainings will cover topics such as:

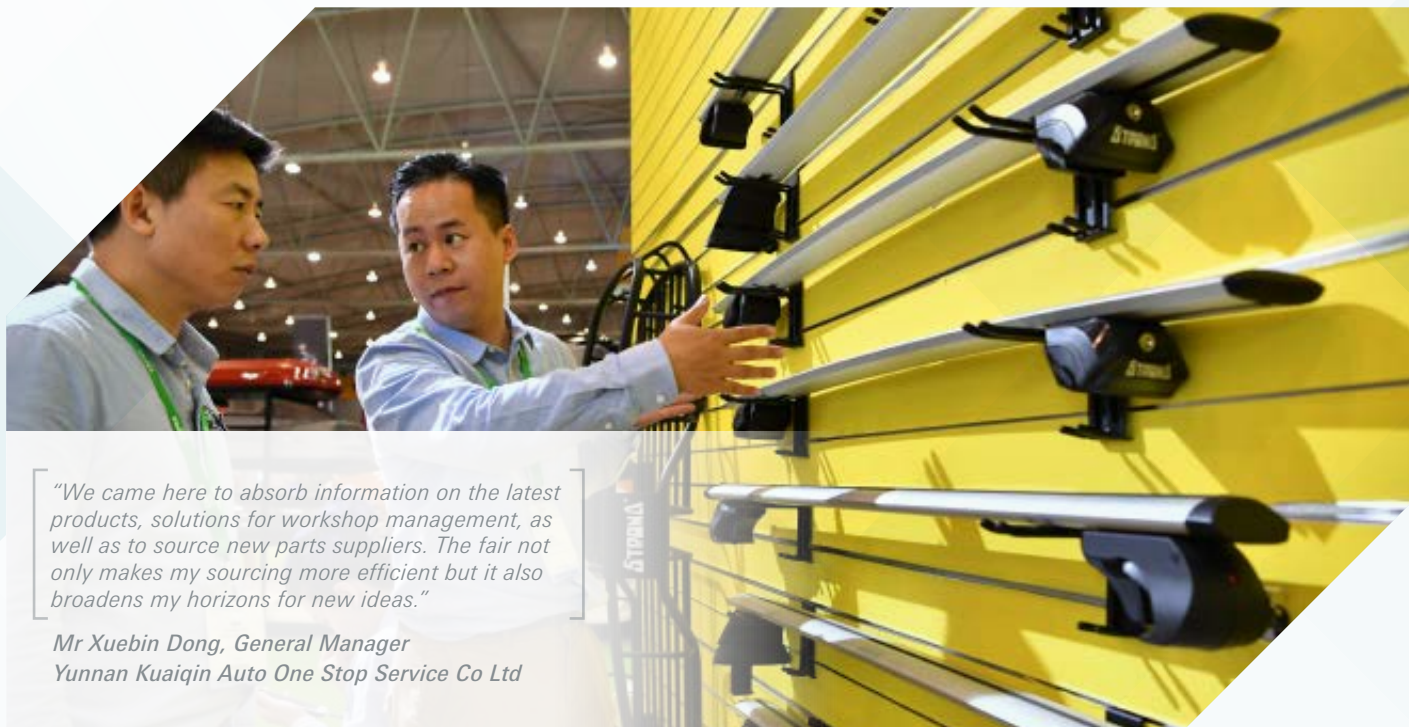

- New policies and regulations
- Developments on new energy and commercial vehicles
- Emerging trends and new technologies in aftermarket segments
